

# The life and ministry of Jesus

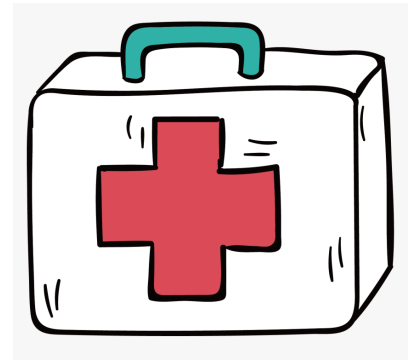

## Lesson 14: Jesus heals a leper

# Colour the picture

# Craft

Let the kids make their own "pretend" first aid kits.

- Fold a piece of white paper in half (to make a little folder).
- Cut out and glue a red cross (plus sign) onto the front. You can also have the children print their names on the front.
- Cut out the two identical U shapes glue or tape them onto the kit as handles.
  - Tape a few example supplies inside:
- Let the kids stick a band aid or two inside ... Band aids are surprisingly fun for kids to "play" with,
- Glue in a cotton ball,
- Tape on a q-tip.
